EXECUTIVE SUMMARY

Enthusiastic Computer Science undergraduate with hands-on experience in Java and web technologies. Strong foundation in data structures, algorithms, object-oriented programming, and problem-solving. Eager to apply technical skills, contribute to real-world software development, and grow as a software engineer.

EDUCATION

Knowledge Institute Of Technology (Autonomous)

Sept 2023 - May 2027

B.Tech - Computer Science and Business Systems

CGPA : 8.16(upto 6th Sem)

HSC - Bala Barathi Matriculation Higher Secondary School

June 2022 - March 2023

Percentage : 72.67%

SSLC - Bala Barathi Matriculation Higher Secondary School

June 2020 - March 2021

Percentage : All Pass

SKILLS SUMMARY

- **Programming Languages:** Java, JavaScript
- **Frameworks & Libraries:** React.js
- **Databases:** SQL
- **Developer Tools:** Github, Figma, Postman
- **Tools & Productivity:** Excel, Canva
- **Soft Skills:** Strong Communication, Team Collaboration, Time Management, Leadership

PROJECTS

ManagePoint – Project Management Web Application

- Developed a workspace-based project management web application enabling teams to manage projects, tasks, and members efficiently.
- Implemented task assignment, due date tracking, and real-time task status updates to improve productivity.
- Built user management and analytics dashboard to monitor project progress, completion rates, and team performance.

EventHub – College Event Management System

- Developed a responsive college event management platform enabling students to browse events, register online, and receive real-time event updates.
- Implemented secure Firebase Authentication, Cloud Firestore for event and registration management, and Firebase Storage for event posters and documents.
- Built an admin dashboard to create, update, and manage events, monitor participant registrations, and visualize event statistics through interactive charts.

INTERNSHIP

TechForge — Frontend Development Intern

- Developed responsive and interactive web applications using React.js, JavaScript, HTML5, and CSS3, creating reusable UI components and ensuring cross-browser compatibility.
- Integrated REST APIs, optimized application performance, and collaborated using Git/GitHub while following modern frontend development best practices.
- Implemented responsive layouts using modern CSS techniques, managed application state with React Hooks, and improved user experience through clean, maintainable, and component-based code.
